Welcome back Rick: could you please review Valois's comments where she has prompted you to respond? It is important that you address as many of her questions, etc. as you can before she returns next Monday so we can stay on track toward re-issuing the draft Class III permit on Monday, August 26th.

Thanks and I will be back in the office tomorrow morning.

Douglas

Hi Darcy –

Attached are the Class III permit and Fact Sheet for your review. Nathan, Douglas and I have reviewed all docs, although comments are still in comment bubbles to be resolved by Valois or Rick. Rick will be back in on Wednesday this week if you have any specific questions. (Note: Nathan's comments on the fact sheet are in a different version as we had some sharepoint issues).

Also – I told you previously that these versions would have all edits since that last PN version in track changes, but that is not the case for the Class III permit. In the Fact Sheet, Valois noted key changes with \$\$ so you can search for that. There are also a few comment bubbles from Valois that note these changes.

Thanks,
Sarah

Hi Valois: my comments and edits are now included in this version of the Class III Permit.

Thanks,

Douglas

Hi Valois: I have attached a version of the Class III Fact Sheet reflecting my comments. It seemed this approach was the only way I could save my edits, etc remotely today.

Most of my comments are related to the changes made from the 2017 Fact Sheet.

Let me know if you have questions, etc.

Douglas

Hi Nathan,

Thanks so much for your timely review! I will look at your comments tomorrow and be in touch.

And thank you, too, Britta! The FR comments you talked about during our meeting today will be helpful to me on the Class III permit.

Valois

Hi Valois,

Very nice job on such a monumentally complex site!

I saved my comments on the Dewey Burdock Class III draft permit and the accompanying fact sheet as new files alongside yours on your I-drive location: **I:\30 Day Share\Valois\Dewey Burdock\Class III\PermitDocs\2ndDraftClassIIIDocs**. Each has my name in the file name.

I made it through the entire permit but I only reviewed part of the fact sheet. I was thinking the permit was the more important document.

I'll be running back to the office today for a R8 Sci Council meeting. Starting tomorrow, I should be back in the office as usual.

Let me know if you would like to meet to discuss any of these comments. Some are pretty easy to address and others might need a bit more than an email exchange.
